

SR Industries LLC

Sewing with pride in America

SR Industries is a cut and sew company that specializes in a variety of different industries, with a focus on industrial products. We've been in business for over 20 years, and our goal is to provide quality, domestic, sewing services within the United States. We strive to be a valuable resource for all things sewing, while also providing assistance with design, prototyping, production, and fulfillment. SR Industries is a one-stop shop.

Core Competencies

- **Material Cutting**
 - We can cut non-woven, woven, vinyl PVC, and most other types of material
 - Automated webbing and Velcro cutting
- **Sewing**
 - Single or double stitch sewing
 - Serge stitching
 - Bar-Tack sewing or box stitching
 - We can tackle most products, aside from apparel
- **Design**
 - Material selection consultation
 - Drawings on request

Differentiators

SR Industries has over 100 years of combined sewing experience. Each of our sewers have over 10+ years of industrial sewing experience. This gives us an advantage in an industry that relies on specialized skills.

Past Performance

Subaru of Indiana Automotive, Inc.

SR Industries has solidified its position as a #1 textile supplier to Subaru over the course of our 10 year relationship. We've supplied countless design solutions for returnable packaging, ensuring both durability and quality.

Nissan

SR Industries has a growing relationship with Nissan, and has been supplying both returnable packaging, and other cut / sewn items. In 2020, SR Industries pivoted production, and produced 300,000+ face masks for the three north American Nissan plants, so that they could continue operations. We were able to scale and produce product in a short amount of time.
